

ALARM MONITORING - MULTIPATH T4000

*Please select subscriptions required by placing a ✓ in the corresponding box.

Back to Base Multipath Alarm Monitoring

Your alarm will be connected to our monitoring station, which is manned by experienced personnel 24 hours a day, 365 days a year.

Multipath IP Alarm Monitoring \$52.50/month -----

Event Notifications

With Sky Command's leading edge message routing, you can monitor your own device with extremely reliable delivery and fast response times via push notifications or email.

Notification subscriptions available:

None -----

Basic App Subscription + Single SIM \$16/month -----

Basic App Subscription + Dual SIM \$20/month -----

T4000 Router

Your T4000 can be used as a router, allowing devices connected to it to access the internet. This is a monthly limit, if the data limit is reached then router functionality is disabled for the remainder of the month. Alarm reporting will still continue as normal.
